Hello,

I updated the table based on the discussion at the meeting. There is a spreadsheet and document version. I provided PDF just in case someone does not have Msword. We should decide on the file format so that 1 is maintained going forward. I probably missed some items. Feel free to mark it up and resend.

Let me know how I get reimbursed for the items I purchased for the PA System - cash request? The other TV / PA items are listed in a previous email: Entertainment System Cable Suggestions. Let me know how to get that going - just send to Cynthia and say buy these items?

I did research on the movie license as part of the TV adventure. The info is located at: <http://www.cassbeth.com/vgem/mem/tech/movie-licensing.html> (bluebell-18).

Thanks

Walt

Hello,

Might I suggest adding another agenda item: Discuss TV and PA system. These are some of the possible discussion items:

- Meeting with a committee to describe PA system findings, current configuration, operation, and future possibilities
- Purchase TV Digital Optical Coax to Analog RCA Audio Converter (email: Entertainment System Cable Suggestions)
- Purchase PA System backup cables and reimburse current costs (email: Entertainment System Cable Suggestions)
- Move Numark CD Player and Power AMP to top of credenza for easy access and safe operation (heat issue)
- Address Movie Licensing, Comcast granted rights, and risks with new smart TV (<http://www.cassbeth.com/vgem/mem/tech/movie-licensing.html>)
- Dealing with the old TV

Info links: (bluebell-18)

<http://www.cassbeth.com/vgem/mem/tech>

<http://www.cassbeth.com/vgem/mem/tech/manuals> (our manual)

<http://www.cassbeth.com/vgem/mem/tech/manuals/TV-PA-Info> (PDF manuals)

I guess we have long term strategic items and short term items needing immediate attention.

Can all of the above be pushed to the maintenance committee or a new committee to take care of the Entertainment System?

Thanks,

Walt

Hello

Looking forward to seeing you at our next T3 meeting on Wednesday 2/7 at 6:30 pm.

Attached is an agenda, and the "assessment grid" of current technology to discuss. If you want any additional items added to the agenda, let me know.

Thanks,

Terry
