STORM DOOR APPLICATION

Name _____ Date _____
 Address _____ Phone _____

An application must be completed by the Homeowner for all changes to the exterior of your home, including installation of a storm door. Application must be accompanied by supporting documents and requires *prior* written approval of the Architectural Control Committee.
 Note: Some home models may require a wood frame to expand the existing door frame.

Use separate application form for (1) solar panels; or (2) satellite dish. File Landscape Plan and Modifications Application for all planting bed modifications; tree and shrubbery planting; landscape walls and pavers; patio walls; patio enlargement; and natural-gas-fired emergency power generator.

Approval of storm door application will be granted provided:

1. Storm door color shall be white or match color of front entry door.
2. Front storm door must be constructed of one panel of clear glass or half-panel glass.
3. Manufacturer's photographs and installation specifications are attached.

Installation of storm door may not begin until Homeowner receives ACC's approval letter from the Community Manager. Work started without *prior* approval of the ACC will be subject to a \$50.00 per day fine until the property is brought into compliance.

Please circle type of door and its location

Front Storm Door:	Color _____	Full View/Full Light	Half View/Half Light
